

# LLAMA AND CHAGUAR

from the land, made by hand

# LLAMA AND CHAGUAR

from the land, made by hand

## **Sacred Geometry, Earthly Roots**

Every piece we curate is a manifestation of a collective spirit—a bridge between the raw soul of the earth and the hands of the women from the Wichí community who protect it. At **Llama & Chaguar**, we design for the conscious seeker who understands that true luxury is not a commodity, but a vessel of purpose.

## **Ancient Wisdom, Living Future**

Our artisans move to the rhythm of the land, weaving the memory of the earth into the present. This is natural luxury in its purest form: a quiet, enduring wisdom that breathes life into the modern home.

**Restorative Luxury:** Restoring the sacred connection between our homes and the natural world.

**Rare Creation:** Keeping the flame of ancient wisdom alive through limited, conscious production.

**Empowerment as Elevation:** Celebrating the divine spark of creativity that allows a community to thrive on its own terms.

## **CURATION FOR THE CONSCIOUS HOME**

We invite you to discover a collection where natural opulence meets ancestral dignity. Welcome to a more conscious future.

## CHAGUAR

Each chaguar piece begins deep in the Gran Chaco forest, where leaves are foraged sustainably with reverence for both plant and ecosystem. Back in the community, fibers are separated, sun-dried and spun entirely by hand. Local roots, barks and fruits yield natural dyes that paint an earthy palette. Skilled weavers apply techniques passed down through generations to create textiles that are at once lightweight, resilient and wonderfully tactile. Meticulous artisanal details, every piece marries ancestral craftsmanship with contemporary luxury.

## LLAMA

Feel the hand loomed warmth and softness of fine Llama Wool, designed and woven by skilled Andean artisans in northern Argentina. Each piece carries centuries of ancestral knowledge, each stitch a link between tradition and contemporary design.

When you bring these textiles into your life, you carry a story of the Andes: heritage, sustainability, and the artistry of hands that weave nature into beauty.
